

# **RentFresh**

By **RID**  
**ODOR**

Rid Odor recommends you treat **every vehicle each time** it is cleaned. This will help to eliminate any odors in the vehicle before it is rented and help to prevent odors your future customer will introduce into the vehicle.

## **FOR DAILY MAINTENANCE:**

This “Daily Maintenance” treatment will ensure consistency of keeping rental fleets odor-free for your customers.

- Spray 4 sprays throughout every car **after** vacuuming.
- Spray cloth seats, headliner and floorboards.

## **STRONG ODOR/SMOKED-IN VEHICLES:**

- Spray the seatbelt\*, cloth seats, headliner, floorboard, A/C return, and the trunk.

**DO NOT SPRAY LEATHER AS IT DOES NOT HOLD ODORS.**

- ❖ SEATBELTS carry a majority of the smoke so make sure to extend it out and treat.
