

BEST USE PRACTICE OF ODOR BOMB

1. Close all windows and shut down air-conditioning or heating unit.
2. Place can on raised surface near middle of vehicle.
3. Spread paper or cloth directly below can for protection.
4. For total discharge, press valve all the way down, locking the catch.
5. Then place can down and immediately leave the vehicle.
6. Do not disturb area for at least 2 hours.
7. After at least 2 hours, open windows for ventilation. If you want to turn on vehicle at this time to circulate through the venting system, do so now for a few minutes. Then shut off vehicle and continue to ventilate with windows down for a minimum of 30 minutes to an hour.

****NOTE****

-The 360 degree valve can be operated to give short bursts of spray by lightly depressing the valve and pointing the can to area to be treated.

-This is not a PPE free product. **Safety glasses should be worn.**

NO SMOKING! This is an aerosol and sparks could cause explosion

STORAGE-

The cans should be stored in a well ventilated area that will not exceed 120 degrees Fahrenheit.

Keep out of Sunlight

Keep away from hot surfaces
